

Training Services

Well trained staff save money

With all of the legislation covering statutory training requirements it is sometimes difficult to know where to turn or what you really need. Unnecessary training is a waste of money and you might miss the important issues.

Training Needs Analysis and advice

We will carry out a Training Needs Analysis based on your company's current situation and suggest the most appropriate training solutions that meet current legislation.

We are a well established company, well established in the field of statutory training. What's more, we have a great reputation for providing interactive and interesting training courses that make a difference.

Some of what we do

First Aid at Work
Emergency First Aid
Level 2 Health and safety (workforce basics)
Level 3 Health and Safety (Supervisors and Managers)
Level 4 Health and Safety (Managers and Safety Managers)
Level 2 Manual Handling
Level 3 Risk Assessors
Construction Health and Safety courses
Care based courses for care homes
Professional Trainers Certificate

We can also design courses to meet your needs

We are an accredited training centre with:

The Health and Safety Executive
The Chartered Institute of Environmental Health (CIEH)

New registrations:

Institute of Safety and Health (IOSH)
National Examining Board of Safety and Health (NEBOSH)

You never know what might happen
effective training will protect your staff and your company
